## Beautiful 4 bedroom family house

The four-bedroom family home is absolutely lovely, with its spacious layout and appealing features. The big windows, luscious garden view, and en-suite bathrooms add to its charm and functionality. The inclusion of a bar with sleeper-wood counter, built-in braai and open-plan layout to the lounge and dining room/TV room is great for entertaining.

The property's extras like the inverter/back-up power supply, curtains and blinds, automatic irrigation, alarm system, and security lights are valuable additions that enhance convenience and security.

Overall, this well-kept and tidy property seems like a promising find for a family looking for a comfortable and functional home in PA Hamlet. Reasonable offers will be considered, making it potentially more accessible to interested buyers.
